AB The compns. comprise **cement**, sand, acetate-ethylene copolymer, soluble **cellulose ether**, **superplasticizer**, air-entraining agent, **extrusion-facilitating agent** (microsilica), waterproofing agent, and reinforcing fibers, e.g. polypropylene fibers. The **cement** /sand ratio is 1:(1-5). The resulting compns. are packed in flexible bags which may also be used for mixing the compns. with water before use. The product is especially suitable for coating concrete surfaces.
